

STOBI
WINERY

OUR STORY

STOBI
WINERY

Wine is both the extract and essence of the grape, whereas the grape is the essence extracted from the land from which it grows. This essence unites the elements of the nature with the power, wisdom and spirit of the people of the land. The vineyards where our grapes grow and the wine cellars where our wine matures are surrounded by the remnants of Stobi, the biggest city from the antique period in this part of Macedonia.

The plots of land planted with our vines have been home to ancient shrines, thus often the roots which are spreading their tendrils to find water, reach the layers under which the Ancient buildings are slumbering in their eternal resting place.

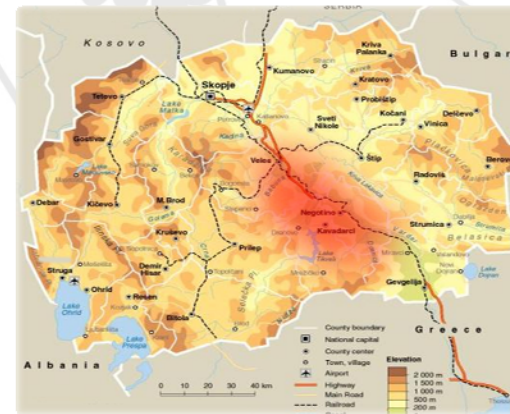

THE REGION

STOBI
WINERY

Stobi winery is located in the heart of Macedonia, in the Tikves (Tick-Vesh) wine region which is the most famous wine region in our country. The region is located at the same meridian, at which the Bordeaux region and Nappa valley are.

This region covers an area of 10.000 HA, and having surface of 1600km², Tikves represents about 1/3 of the total grape growing area of Macedonia.

Due to the collision between the Mediterranean climate from the south and the Continental one from the north, this region is the most remarkable area for wine growing/production of the Balkan Peninsula.

THE REGION

STOBI
WINERY

There are predominantly 20 different grape varieties grown in the Tikveš region, traditional such as Vranec, Kadarka, Kratoshija, Stanushina, Zilavka, Zupljanka, Smederevka, Temjanika, Plavec.

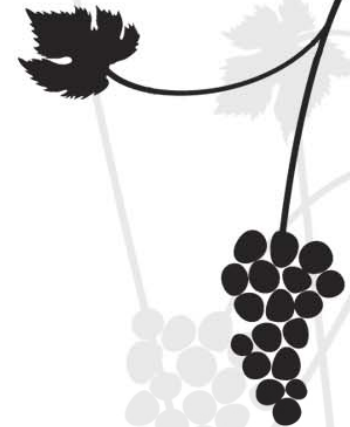

As wine consumers' preferences change globally, the region is keeping pace with current trends and is adjusting its international wine varieties accordingly.

OUR WINERY

Stobi Winery is the latest investment within the agro-industrial complex Permindeks. The winery is equipped with state-of-the-art systems, and an incomparable extraction system which helps to ensure that we preserve the utmost and constant quality of our grapes and later our wines much more efficiently and effectively than other wineries.

The total capacity of our winery is 4.500.000 liters. The production is exclusively based on our own vineyards, which are covering about 600 HA in total, with traditional varieties of grapes, as well as internationally recognized varieties.

OUR WINERY

STOBI
WINERY

We are constantly investing in planting of new vineyards. For the last couple of years we have planted rootstocks coming from diverse world-known producers. Some of the varieties that we cultivate are Chardonnay, Muscat Ottonel, Cabernet Sauvignon, Cabernet Franc, Merlot, Petit Verdot, Shiraz (Syrah), Zilavka, Zupljanka, Vranec, Rkaciteli, Rhine Riesling, Italian Riesling, Pinot Noir and others.

All the technology installed originates from well-known producers from Italy and Germany including equipment from companies such as Gimar Tecno, Siprem, Gortani, Dalla Torre Impianti, Pall Filtration Systems, and Krones Ag.

The winery's bottling line (produced by Krones ag.) has the capacity of 5.000 bottles per hour and can deliver five different bottle formats (1L stelvin, 1L cork, 0,750L, 0,5L, and 0,187L packagings).

The winery has also made a great investment for the barrique department, which covers an area of 700m². The capacity of this oak department is 300,000 Liters, from which 70% in big oval casks and 30% in small barrels of 225L, all made of different types of oak of highest quality.

OUR WINERY

STOBI
WINERY

The winery offers a wonderful experience for its guests in an unforgettable ambient in the restaurant and the most unique wine-tasting center which are located right next to the production capacities.

The wine-tasting center, which is a part of the barrique department, proudly stands in front of the challenges of the most eminent wineries in Europe. The center enables development of the wine tourism in Macedonia and portrays the uniqueness of the region to the tourists, and the taste of the exceptionally delicious Macedonian cuisine and wine.
